CERTIFICATE FOR FOOD GRADE JUTE CLOTH

In pursuance to an order received from Messrs. AGAVE, S.A. DE C.V. on June 25, 2021 requesting us to carry out the supervision and Sampling Food of Grade Jute Cloth treated with vegetable oil, we have performed the inspection as follows:

FINDINGS

We SGS as an independent International Inspection Company, herewith certify that on June 25, 2021 we supervised and conducted at AGAVE, S.A. de C.V. manufacturing mill, El Platanar located at Moncagua, San Miguel, El Salvador, C.A. where we have witnessed the jute cloth production process treated with vegetable oil, in conjunction with Mr. Luis Alberto Carranza (Mill Representative) at following:

SAMPLING:

Two samples of jute cloth were drawn by us chosen at random during production process. It is certified that the sample has been drawn by a representative of this institution as per established sampling procedure.

ANALYSIS:

The samples of jute cloth that were drawn by us chosen at random during production were handed to an independent reliable local laboratory, where were verified the content of unsaponifiable matter using the procedure stated by the Food Grade Jute Bag/Cloth (IJO Standard 98/01) with the following result:

JUTE SAMPLE 100% Agave cloth	UNSAPONIFIABLE MATTER CONTENT (PPM)	REQUIREMENT UNSAPONIFIABLE MATTER CONTENT NOT TO EXCEED (PPM)
ID HILO # 10	mg/kg of Jute bag equivalent to 402.1 ppm	1,250
ID HILO # 18	mg/kg of Jute bag equivalent to 707.4 ppm	1,250

Based on Test results of the samples listed above, the jute cloth meet the requirement of Food Grade Jute Bag/Cloth in respect of unsaponifiable matter content (IJO Standard 98/01) based International Jute Study Group, IJSG 2005.

PHOTO REPORT:

The following photographs were taken during sampling of Jute cloth at random:

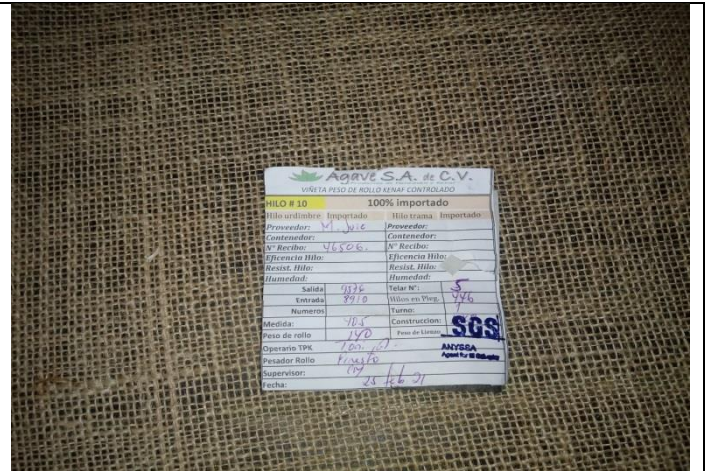

Label Jute cloth Hilo No. 18 mixed, inspected and sampled at Agave factory at El Platanar, Moncagua, San Miguel on June 25, 2021.
